BETWEXT × TWILIO — DEMO DECOMPOSITION

What the reschedule demo runs on

Bay Area Learning Center voice + RCS agent, mapped to the Twilio UC catalog · **4 use cases** demonstrated · **6 Twilio products** run it · **11 more** across Crawl / Walk / Run

THE DEMO FLOW and what each step runs on

1 — Webinar attendee opens a voice call
- Programmable Voice
- *Twilio number or browser (Voice SDK)*

2 — Agent checks for an existing session with the host
- Conversation Relay
- Conversation Orchestrator
- *caller matched by phone number*
- *GPT-4o tool call → Airtable*
- *reschedule if booked, offer times if not*

3 — "Keep it or reschedule?"
- Conversation Relay
- *speech-to-text + text-to-speech*
- *answers in the caller's language*

4 — New times sent by RCS
- RCS
- Programmable Messaging
- *Content Template, 3 tap options*
- *SMS fallback via Messaging Service*

5 — Tap lands on the live call
- Conversation Orchestrator
- *call + RCS in one conversation*
- *agent confirms aloud*

6 — Ops watches live, reviews after
- Conversation Intelligence
- *live transcript*
- *Sentiment operator*
- *PII redaction, text + audio*

USE CASES DEMONSTRATED product lists per tier are the catalog's own

Required for the demo · Extra · Feature or non-Twilio component · Where the demo lands

USE CASE	CRAWL	WALK	RUN
CORE **Appointment Scheduling & Rescheduling** Reschedule by phone, pick a new time from an RCS text, confirm with a tap.	Programmable Messaging · Studio	Programmable Voice · RCS · Programmable Video · Twilio Sync	DEMO Conversation Relay · Conversation Orchestrator · Conversation Memory · Enterprise Knowledge
HOW IT'S DELIVERED **Multi-Channel Inbound Self-Service & IVR/IVA** AI agent answers, finds the student's record, and resolves the request without staff.	Studio · Conversation Intelligence · Programmable Messaging · Elastic SIP Trunking	DEMO Conversation Relay · Conversation Orchestrator · Programmable Voice · Messaging - Software · Twilio Sync · *Text to Speech — in Relay*	Enterprise Knowledge · Conversation Memory · Voice Insights
HOW THE CHANNELS CONNECT **Persistent Conversations & Contextual History** The call and the RCS tap are one conversation, so the agent knows the tap landed while the student is still on the line.	Studio · Programmable Messaging	DEMO Conversation Relay · Conversation Orchestrator · Programmable Voice · Messaging - Software	Conversation Memory · Segment · Conversation Intelligence
HOW IT'S GOVERNED **Real-Time Observability & Compliance Monitoring** Live transcript during the call; after it, the transcript, sentiment, and PII redacted from text and audio.	Programmable Voice · Voice Insights	DEMO Conversation Intelligence · Flex	Conversation Memory · Conversation Intelligence · Enterprise Knowledge · Editions
